Database
MongoDB, PostgreSQL, MySQL, Firebase, SQL Server

Tools & Technologies
Git, GitHub, Docker, VS Code, Postman, Sequelize ORM

Soft Skills
Problem Solving, Team Collaboration, Communication, Fast Learning, Adaptability, Attention to Detail

PROJECTS

Lottery Checker App 08/2025
Mobile Application
A mobile application that allows users to quickly check lottery results through a simple and intuitive interface, providing fast and reliable result verification.**Demo:** https://youtube.com/shorts/wpZozG60Vqc?feature=share

Efoyta Agri Market Palce 06/2025

Full Stack Web Application

A modern e-commerce platform featuring user authentication, product management, shopping cart, order processing, and responsive user interfaces. Built with modern full-stack technologies focusing on scalability and performance.**Demo:** https://youtu.be/JTLNWEmK_gA

AI Stock Market Prediction Bot

AI Automation | n8n Workflow

Designed and developed an AI-powered automation workflow using **n8n** that collects and analyzes market data to identify stocks with strong potential to perform well in the next trading day. The system automates data processing and provides actionable insights to support investment research

ShopHabesha 11/2025

Telegram Mini Web App | Credit Management System

Developed a Telegram Mini Web App that helps Ethiopian shops manage customer credit transactions efficiently. The application enables shop owners to record, track, and manage customer credit balances through an easy-to-use interface integrated with Telegram, improving accuracy and simplifying day-to-day credit management. https://t.me/shophabesha_bot
